

# WHAT YOU NEED TO KNOW ABOUT OVERDRAFTS AND OVERDRAFT FEES

## What is an overdraft?

---

An overdraft occurs when you do not have sufficient available funds in your account to cover a transaction, but we pay it anyway. We look at the available balance when determining whether there is an overdraft. Available balance is the ledger balance minus any deposits or withdrawals that are on hold or transactions that have been preauthorized but have not yet been debited from your account, such as gas station purchases, hotel or reservations and other such items. We can cover your overdrafts in two different ways:

1. We have standard overdraft practices called Courtesy Pay that comes with your account.
2. We also have Overdraft Transfers, such as link to a savings account, or an overdraft line of credit, which may be less expensive than standard overdraft practices. To learn more, ask us about these plans.

This notice explains our standard overdraft practices.

## What are the standard overdraft practices that come with my account?

---

We do authorize and pay overdrafts for the following types of transactions:

- Checks and other transactions made using your checking account number
- Automatic bill payments

We do not authorize and pay overdrafts for the following types of transactions unless you ask us to (see below):

- ATM transactions
- Everyday debit card transactions

We pay overdrafts at our discretion, which means we do not guarantee that we will always authorize and pay any type of transaction. If we do not authorize and pay an overdraft, your transaction will be declined.

## What fees will I be charged if Ignite Credit Union pays my overdraft?

---

Under our standard overdraft practices:

- We will charge you a fee of up to       \$27       each time we pay an overdraft.
- There is no limit on the total fees we can charge you for overdrawing your account.
-
