

Dear Valued Member,

Check out the latest news, resources, and more in our May 2023 Youth eNewsletter!

Financial Literacy Workshop

Our first Financial Literacy Workshop was a huge success! We had a wonderful time meeting everyone and teaching the kids about budgeting with our new financial literacy Jelly Bean Game!

Keep an eye out for upcoming workshops. Each event will focus on an important financial topic, such as saving, budgeting, and investing. There will also be fun activities for kids during the presentation, giveaways, and snacks for everyone who attends!

FINANCIAL LITERACY

THE JELLY BEAN GAME

HOW TO PLAY

This financial literacy activity works best when played as a team. Divide into teams and get ready to learn some budgeting essentials!

Each team will receive 20 jelly beans and two spending category sheets. Working together as a team, decide how to spend your "income" based on life circumstances and goals. Each item will show how many beans are needed to "pay" for the item.

TOP TIP

Use our scenario ideas to make the game more challenging and test your budgeting skills.

ROUND 1

Necessities come first! Make your choices and pay your dues for the following categories:

1. Housing
2. Furniture
3. Transportation
4. Insurance
5. Food

Have jelly beans left? Continue making choices until you've used up all 20 Jelly Beans.

ROUND 2

Oh no! Your income has just been cut to only 13 jelly beans. What will you need to give up? What changes can you make to save "money"? Move and take away jelly beans until you only have 13 beans on your sheet.

DISCUSSION

What options did you choose and why?

Did you find it difficult to decide how to spend your "money"?

What did you choose to give up in round 2? Why?

What have you learned about yourself and money?

Looking for a fun way to teach your kids about budgeting?? Try playing The Jelly Bean Game!

Start by dividing into teams. Each team will then need 20 jelly beans and the two spending category sheets. Working together, the players will decide how to spend their income based on life circumstances and goals - using the beans to "pay" for their choices!

At the end of the game, discuss which options they chose and why, how difficult their decisions were, and what they learned about themselves and money!

Introducing Zogo Español

Did you know Zogo supports Spanish language learning?

Learners on Zogo have the option to learn in both English and Spanish languages! To toggle between languages in the app, simply change them in the "General" settings!

We know that language barriers can be a major obstacle when it comes to accessing financial education resources. That's why we're proud to partner with [Zogo](#), a mobile-first financial education platform that offers financial lessons in both English and Spanish!

Studies have shown that learners are more engaged and retain information better when studying in their native language. In our partnership with Zogo, we can reach 40+ million learners in America who speak Spanish as their native language.

We want to make learning financial skills easy for everyone to access the tools and knowledge they need to achieve financial wellness. If you would like to switch to Zogo Español in the Zogo app, head to your "General" settings under your profile and toggle to the language you prefer!
